

DUKET D

The Journey to Shared Wealth Begins with Shared Knowledge

Start your Journey

What are DUKETs?

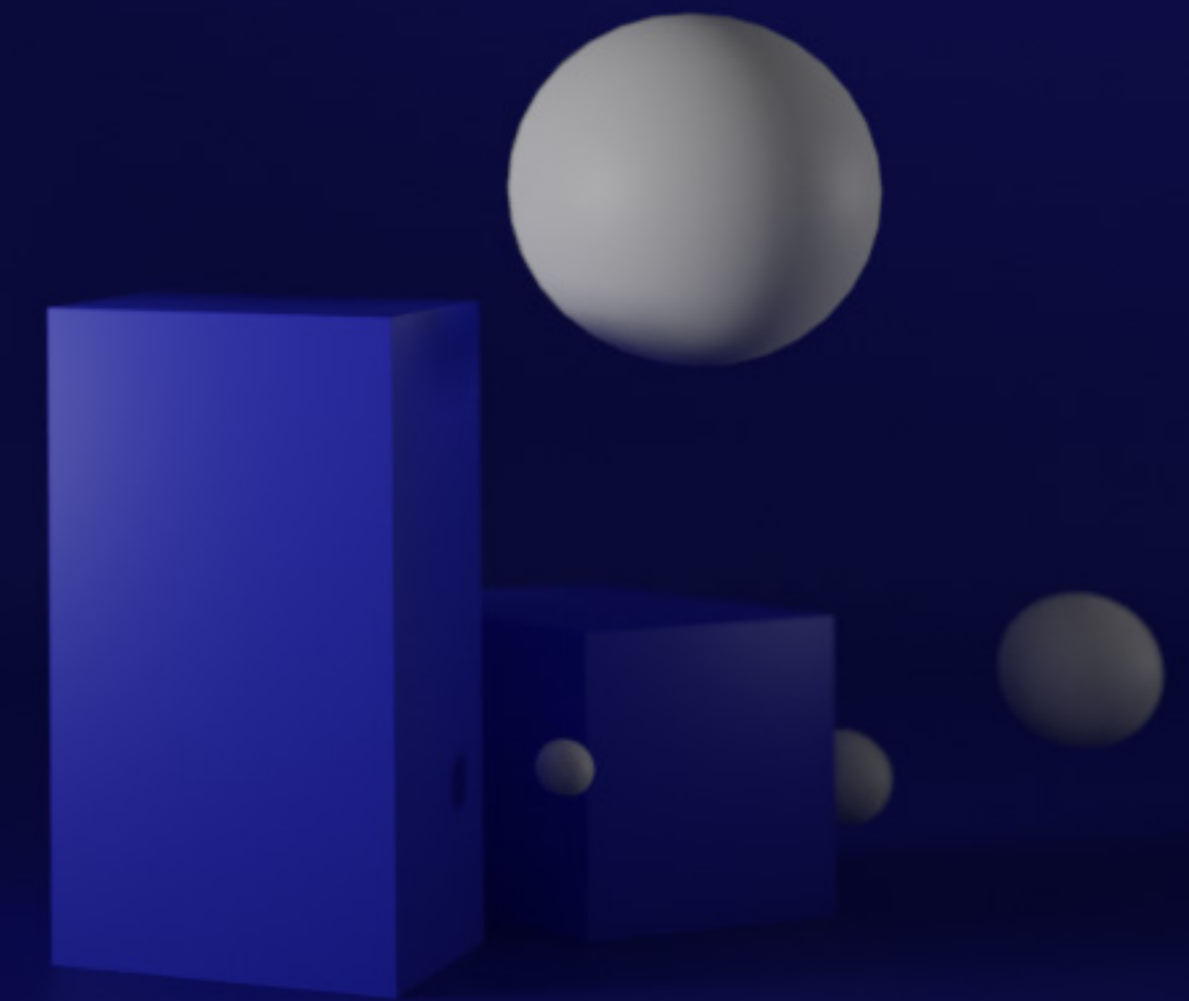

DUKETs are a digital asset created by SHYNZ to teach our community how leverage blockchain technology.

The Journey Begins With Knowledge

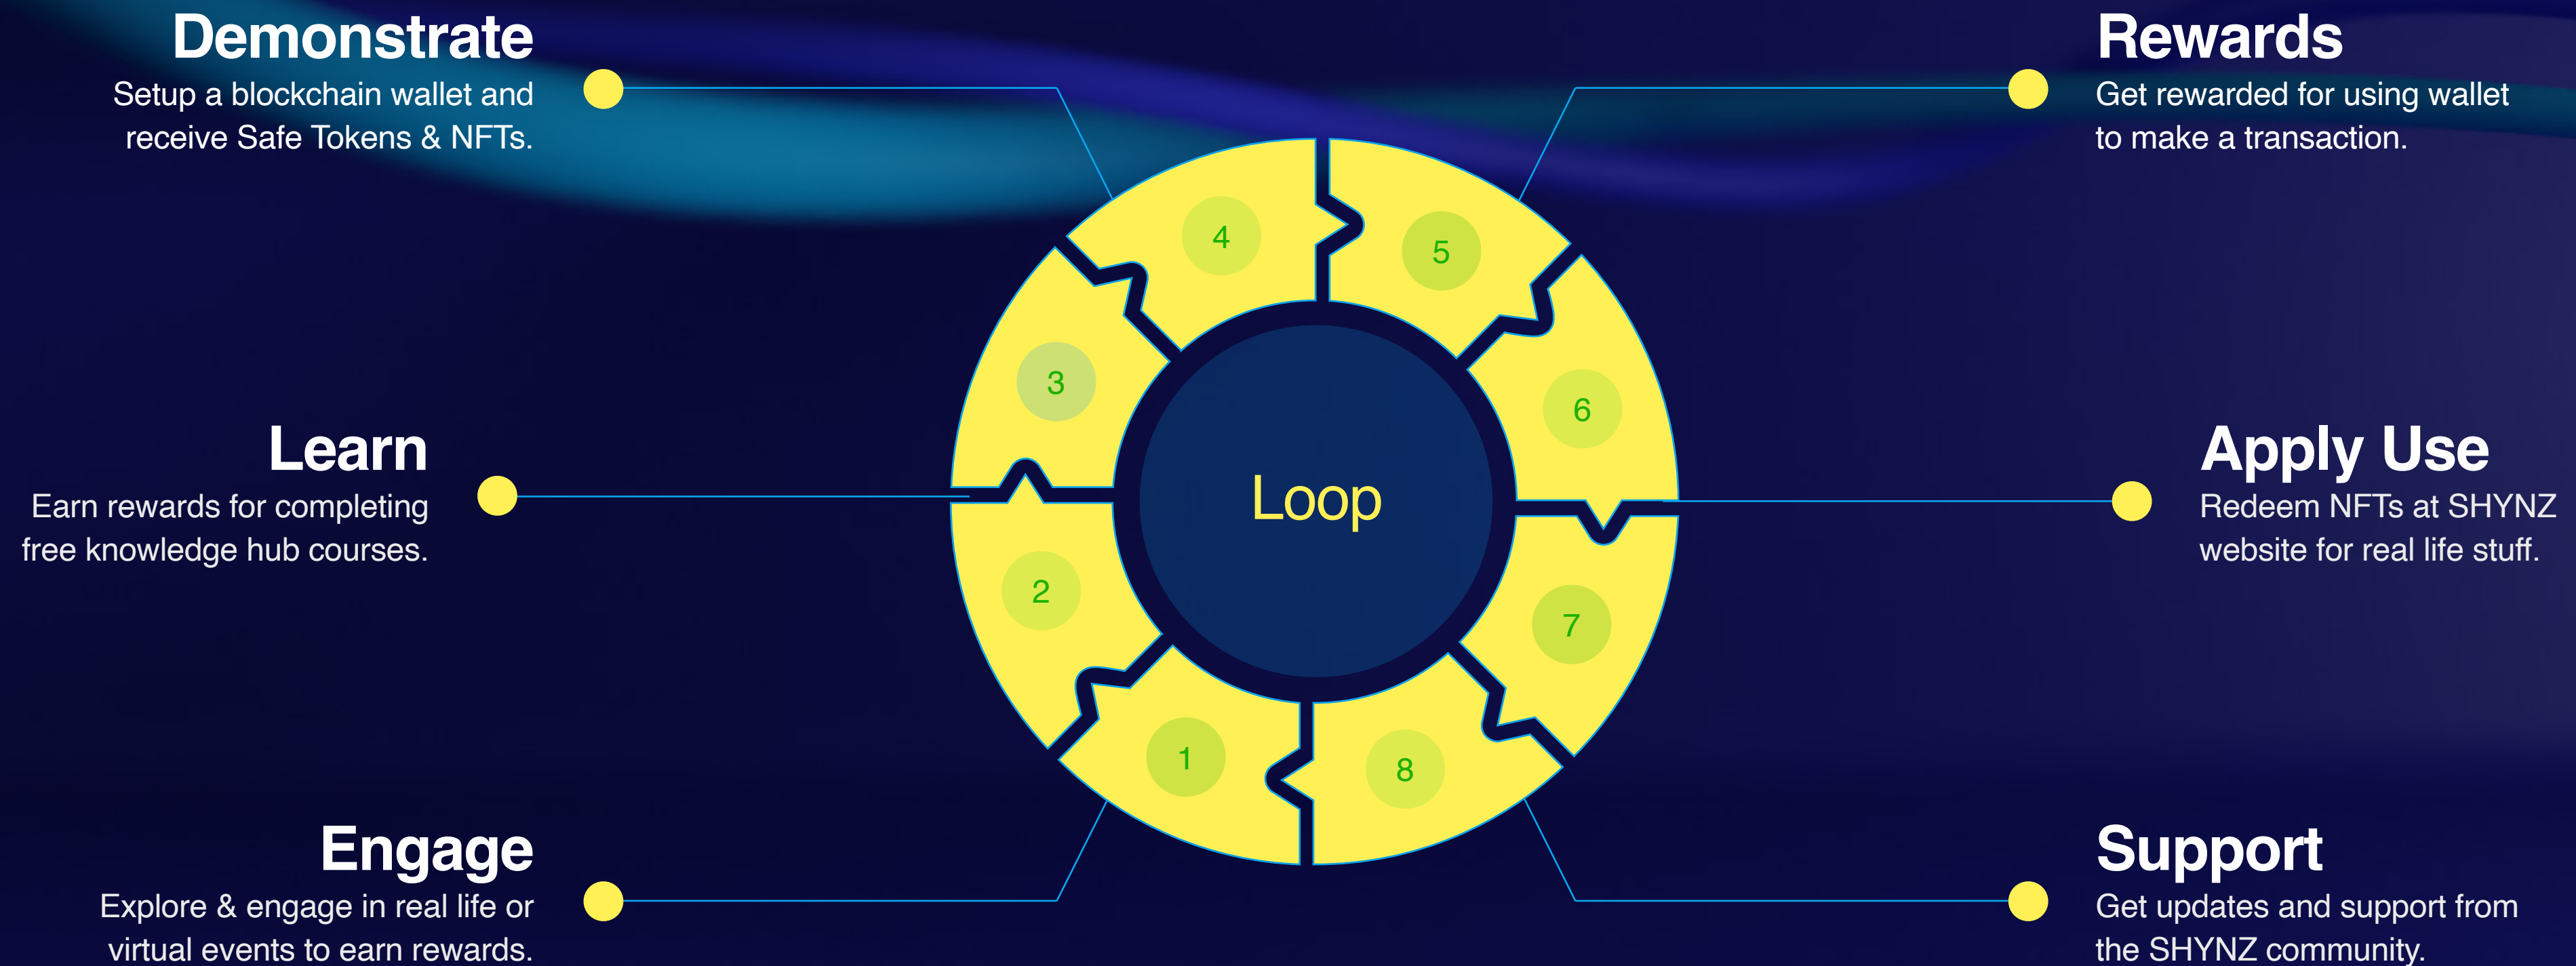

Our Web 3 Teaching Strategy

Our teaching strategy utilizes direct engagement, knowledge building, demonstrations, rewards, applied use, & the SHYNZ community to help unlock the potential of blockchain technology.

Our Web 3 Teaching Strategy

Ways to Earn DUKETs

01

Learn & Earn

Earn DUKETS for completing SHYNZ Knowledge Hub courses.

02

Play & Earn

Play or host community games to get DUKETS & win NFT Prizes

03

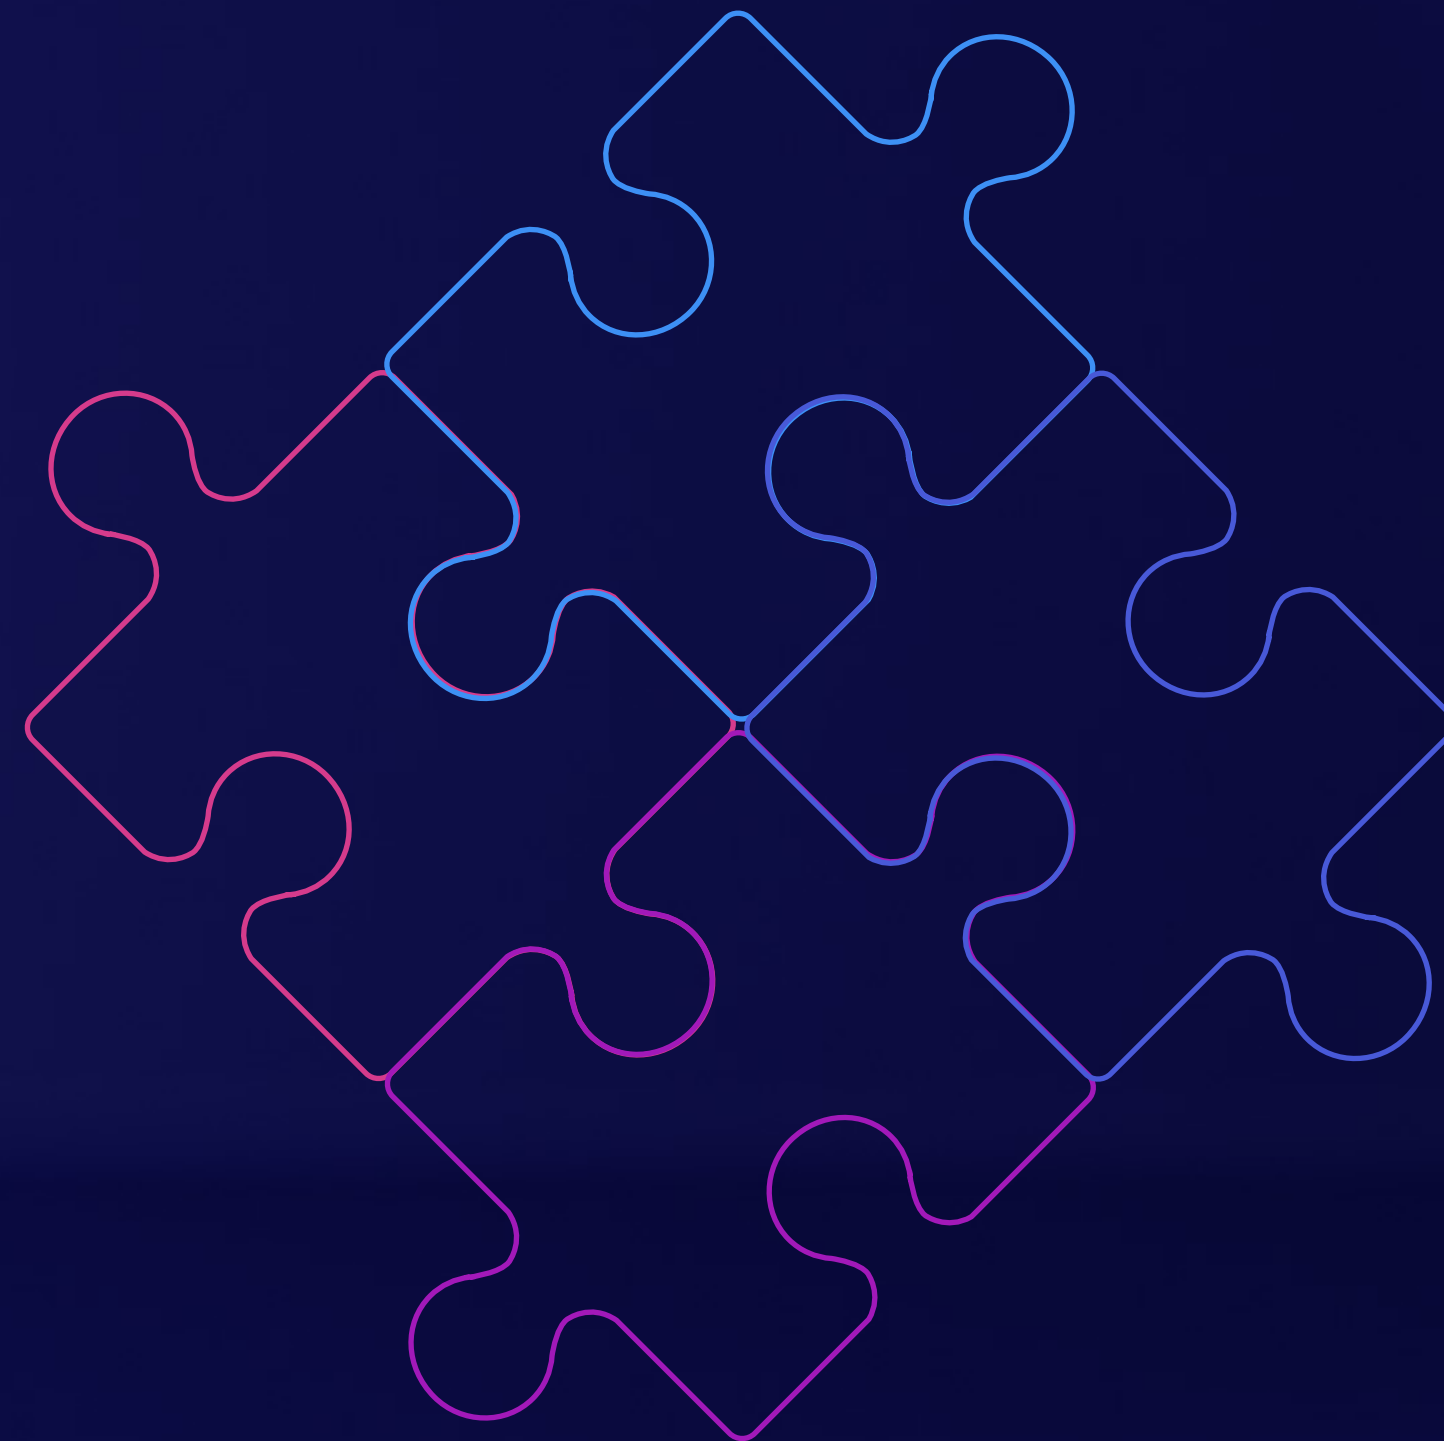

Engage & Earn

Attend real life or virtual events to earn DUKETS & other prizes.

04

Build & Earn

Use DUKETS for your events or projects to unlock special rewards

Shared Ownership

Community Owned Community Backed

We are a community of visionary creators, builders, & pioneers. DUKETs fuel our commitment to our community and our mission to leverage blockchain technology & create shared wealth.

Community Owned

We all own DUKETs (DUK). Use it, you own it. Build with it, you own it. Stake your claim, you own it.

Safe & Secure

DUKET complies with ERC 20 Standards for token contracts and is 100% community owned.

Non-Diluted Asset

There are no special interest groups or investors that hold an access amount of DUKETs.

Community Gigs

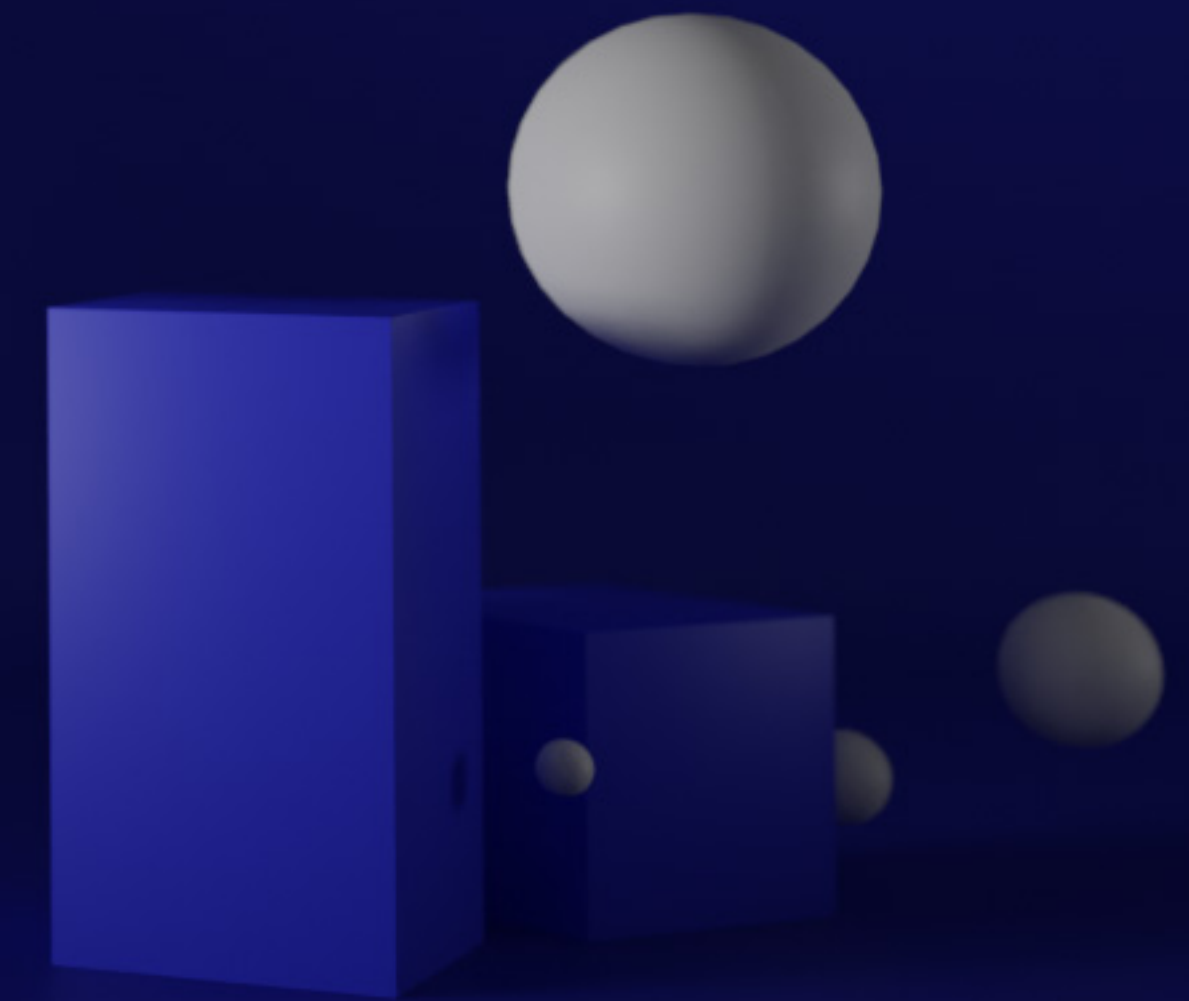

Work with our community to build out the DUKET Brand and earn equity in the project as we build together.

Using Blockchain Technology to Create Shared Wealth!

Explore Shared Wealth Possibilities

Blockchain Technology has the highest potential for creating shared wealth by enabling the creation of non-organizational controlled networks and platforms that facilitate trust and transparency among their participants.

These networks have the potential to create shared wealth by providing access to financial services and investment opportunities for individuals who may be excluded from traditional financial systems, and by creating more transparent and efficient systems for recording and verifying transactions.

The Blockchain Advantage

Digital Currency

Digital Assets like Tokens & NFTs use blockchain technology to create a decentralized system that allows users to transfer value directly to each other, without the need for banks or other financial institutions.

Decentralized Finance

Decentralized Finance (DeFi) can provide access to financial services to people who are unbanked, thus creating shared wealth by providing access to financial resources that were previously unavailable.

Tokenization

Tokenization can enable individuals to invest in assets that were previously only available to large institutional investors. This may allow investors to own a fraction of the asset and have the potential to generate returns.

Shared Ownership

Blockchain Technology can enable transparent and secure record-keeping, decision-making, and distribution of profits, which can help ensure that all participants benefit from the shared ownership.

Wealth Empowerment Tool Kit

DUKET **D**

Wealth Empowerment

Sharing knowledge and wealth creation tools. Building wealth together.

Community Revitalization

Rebuilding our communities. Creating a place for us to grow together.

Business Building

Investing in ourselves and our community. Building our digital economy together.

History of DUKETs Development

**NOV -
2022**

Develop DUKET

Complete DUKET Token creation, supply initial liquidity, & build website.

**JAN -
2023**

Knowledge Hub

Build SHYNZ Knowledge Hub. Expand learning course catalog.

**FEB -
2023**

NFT Rewards

Go live with Achievement NFTs. Start rewarding for completed courses.

**MAR -
2023**

Rewards Website

Launch SHYNZ Rewards. Shop & Redeem NFT Rewards.

**APR -
2023**

Official Launch

Start community Building. Host and Sponsor events.

Journey & Road Map

April 2023

Launch DUKET Token

Community Engagement Event -

Launch initial community onboarding, web 3 education, & wallet setup. Start DUKET Token & SHYNZ Rewards NFT Giveaway.

September 2023

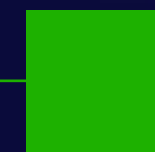

Build Community

Aggressively Grow Community -

Grow & Expand active users to over 5,000 wallets. Our goal is to continue to create value for DUKETs and build out the Shared Wealth Network

January 2024

Exchange Listing

Major Exchange Listing -

Get our token listed on a major exchange, such as Coinbase. We believe that achieving this shared goal will add value for all DUKET Holders.

Key Blockchain Statistics

300M
Users

Over 300 million users and projected to rapidly grow.

6.6B
Spending

Worldwide spending on Blockchain Solutions in 2021.

90%
Banks

Over 90% of banks have started exploring financial uses.

19B
Projected

Companies are projected to spend over 19 billion by 2024

Wealth Network Vision

Community Building

Our shared wealth strategy leverages the combined output of the community to build a wealth creating network for the benefit of the community. Our goal is to create the infrastructure for our community to unlock their potential and build wealth with our community.

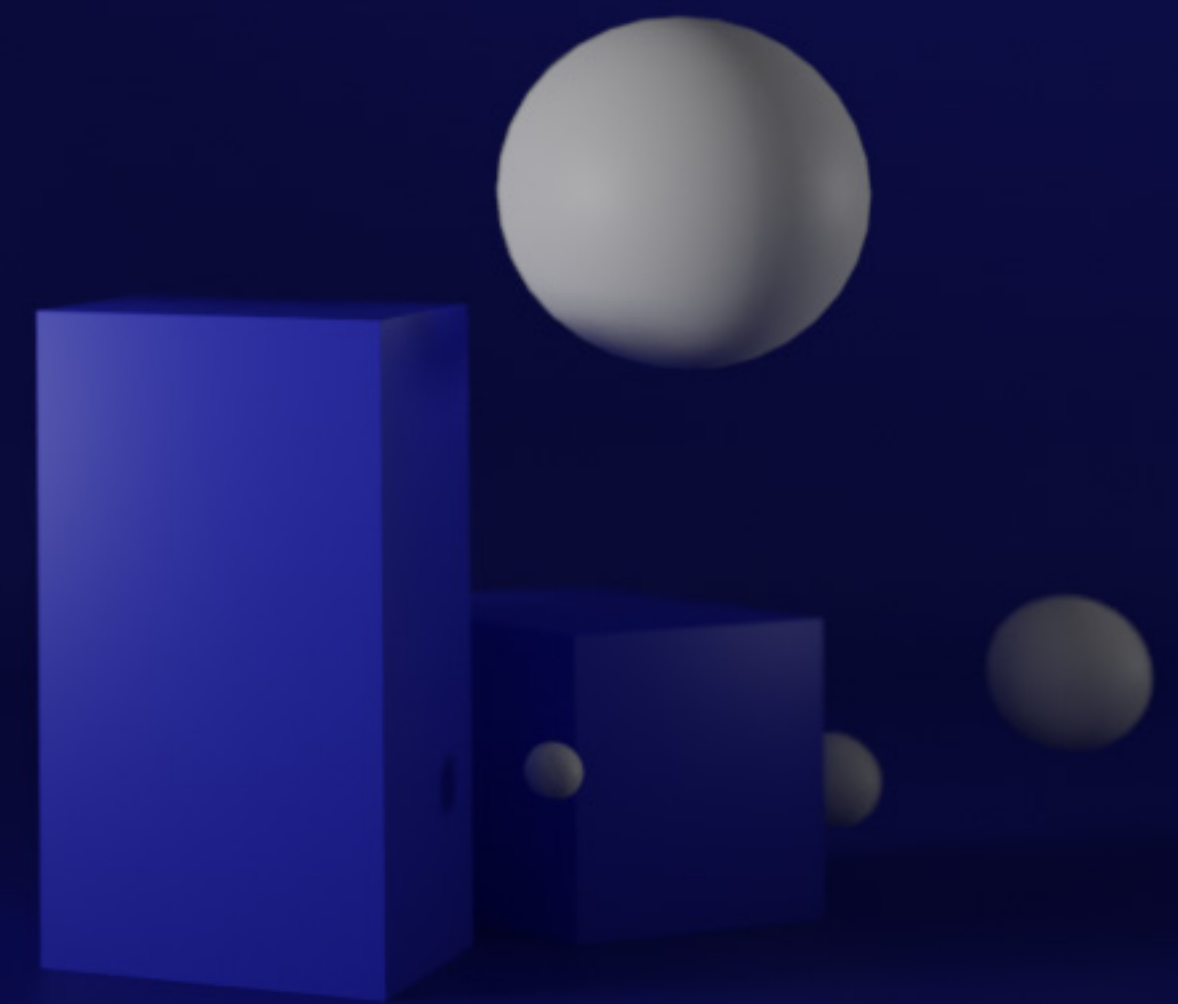

DUKET

Build

Conclusion

Overall, blockchain technology has the potential to create shared wealth by creating open networks and platforms that enable trust, transparency, and collaboration among all participants.

Phillip Hale

CEO and Founder

“We all have a common goal & work for the greater good of our community. There's nothing better than earning equity while building shared wealth! “
